

## Languages Policy

*(Ratified by School Council: October 2019)*

### **PURPOSE:**

This Languages Policy is to guide the teaching of languages other than English.

The understanding and appreciation of different cultures plays an essential role when connecting with our intercultural society. This policy is written to guide the teaching and learning of Language (Mandarin) at Glen Waverley Primary School.

### **GUIDELINES:**

Mandarin is the current language for study in the language program. It aims to provide students with the opportunity to enhance the development of Mandarin linguistic and communication skills while building cultural knowledge and awareness in a learning environment designed to immerse students in a language other than English. In this way, language learning contributes to the development of interculturally aware citizens, an increasingly important quality at a time of rapid and deep globalisation. Acquisition of more than one language enriches personal growth and helps facilitate international understanding. (Victorian Curriculum). The Chinese curriculum takes account of different entry points into language learning based on the language acquisition backgrounds of the students.

The aim of the Language program is to;

- ♦ Provide students with opportunity to learn a language in addition to English, and increase the awareness of the way language works.
- ♦ Provide to pathways for two learner groups; one for those students learning Chinese as an additional new language and one for those students who may use the language at home and have varying degrees of knowledge and proficiency of the Chinese language.
- ♦ Develop targeted language skills in writing, speaking, reading and listening, and engage students in meaningful and authentic tasks incorporating ICT and latest learning technologies.
- ♦ Embed inquiry learning, critical thinking and stimulate the development of reflective skills and creativity through the learning of languages.
- ♦ Develop students' understanding of the intercultural community and of the wider society, building an appreciation and respect for people belonging to cultures different to their own.
- ♦ Enhance student's self-esteem and gain personal confidence through learning a language other than English.

The Languages Curriculum (Mandarin) has been designed to focus on;

- Language or communication skills (content required for Speaking, Listening, Reading and Writing in Mandarin)
- Intercultural knowledge (exploring Chinese Culture, History and Geography)

### **IMPLEMENTATION:**

The Mandarin program’s development and implementation is based on the whole school Global Education priorities (as outlined in the Curriculum Policy) and supported by the Victorian Curriculum

- ♦ The Mandarin program is an integral part of the school curriculum.
- ♦ Mandarin study for each student will be timetabled for 60 minutes per week.
- ♦ The Mandarin program will be planned to cater for the identified needs of each student.
- ♦ Student progress in Mandarin will be reported against standards in the end of year Academic Report.
- ♦ The Mandarin teachers will determine which pathway best serves their students’ needs and use the pathways to cater for students by making appropriate adjustments to differentiate their learning experiences.

**Timetabling:**

The teaching of Mandarin is timetabled to occur in all the classes from Prep to Year 6 for 60 minutes per week. The curriculum is integrated with whole school one year inquiry curriculum and based upon the outcomes contained within the Victorian Curriculum, with the aim to enhance the learning of other areas of the curriculum.

**Planning:**

The planning of Mandarin at the School collectively addresses;

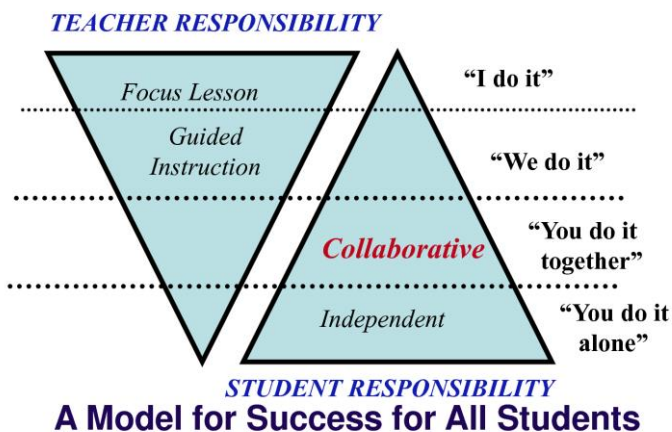

- Links to the whole school inquiry curriculum
- Skills and Competencies as outlined in the scope and sequence of the Victorian Curriculum- Language
- <http://victoriancurriculum.vcaa.vic.edu.au/chinese>
- Historical, Social & Cultural context, similarities and differences

Teaching and learning is scaffolded. The Mandarin programme links to units of inquiry undertaken in the classroom where appropriate. It is sequential and allows for the development and realistic acquisition of oral, written and visual language skills. Students are guided as they reflect on their learning in order to deepen their understanding of the Chinese language and culture. In this way, Mandarin learning contributes to the development of intercultural global contributors.

**Lesson Structure:**

The whole school’s instructional model “The Gradual Release of Responsibility” is utilised to structure a Mandarin lesson and overall Program. Teaching and learning tasks are incorporated that focus on differentiated strategies to meet the specific learning needs of students across the range of abilities.

Each language lesson is to be taught based upon the Gradual Release of Responsibility and may include

The Warm-Up: (5 minutes)  
Warm up and set up the learning intention: WALT and WILF

The whole class lesson: (5 – 10 minutes)  
Focus on the language skills and cultural awareness

The Learning Task:(25 – 35 minutes)  
Differentiated learning tasks to meet the various learning abilities

Share/Reflection: (5 – 15 minutes)  
Reflect on learning and share: TIB

Fisher, D., & Frey, N. (2008). *Better learning through structured teaching: A framework for the gradual release of responsibility*. Alexandria, VA: Association for Supervision and Curriculum Development.

### ***Assessment and Reporting:***

The assessment and reporting of Mandarin is to be conducted in line with the Assessment and Reporting Schedule. Mandarin learning tasks that reflect the topics being studied, and are appropriate to each child's ability, will form a component of each student's portfolio in the first semester. Student progress in Mandarin learning will be reported at the end of year academic reports.

The Victorian Curriculum has been written to equip students with the skills, knowledge and understanding that will enable them to engage effectively with and prosper in a globalised world. Students will gain personal and social benefits, be better equipped to make sense of the world in which they live and make an important contribution to building the social, intellectual and creative capital of our nation.
